You can search jobs by selecting relevant criteria in the drop-down menus. Select from the following categories to fine tune your search:

- Job Shift (Variable, Day, Night, Rotating, On Call)
- Job Field Categories and Specialty options
- Location (State, City, Facility)

Sign-In

First time users have the opportunity to create an account with a user name and password. Setting up an account is not required, but may aid you in future job searches. Once you have signed in or registered, you can save the current search for reuse by clicking "Save this Search" at the top of the page. Your searches will be saved in the "My Saved Searches" section, under the "My Jobpage" tab.

Search Tips:

- Our job sites are mobile friendly allowing you the capability and convenience of applying right from your mobile device!
- You can search by exact location such as Bergan or a specific Clinic for example but all locations nationally across CHI are listed in the drop down so in most scenarios, it's best to view only by city and not facility location.
- If you know the requisition number for the job opening you are interested in, enter the number into the "Keyword" field to limit your search to that job.
- Job postings can be printed if needed. Just click "printable format" in the upper right hand corner on a job posting page.
- On a job posting page, click "Return to the home page" to continue your search.
- Once you have a list of positons isolated, you can sort them by relevancy, job title, and/or un-posting date.
